2011-2017 (expected)

*University of Oulu
Computer science and engineering*

2007-2010

*Kalajoen Lukio
Upper secondary school graduate*

Experience

Software engineer Codemate Ltd [2015->]

In february 2015 I started working as software engineer in Codemate. I have worked in customer projects using multiple techniques such as Go, React, Tornado, C# and many others.

Research assistant University of Oulu [2014->2015]

In may 2014 when I finished project for my bachelor thesis I was asked to continue working with the project as research assistant. Since then I been developing plugins and dashboard for AWARE.

Web developer at Zef Oy [2014]

In summer 2014 I worked in small team developing backend services and UI for zefglobal. I created web service with API for website style analyzing using mostly

nodejs. For frontend development I used mostly Enyo and LESS. I also got familiar with Grunt and Google cloud services.

Process worker at BetKer Oy [2010–2013]

In summers 2010–2013 I worked in various positions operating multiple industrial machines.

Mechanic/attendant at JukuPark Oy [2006–2009]

In summers 2006–2009 I operated and repaired boats, ATVs and motocross bikes.

Hobbies

Co-Founder and Chairman of Bit Brewers Oy

During my freetime I run two man company and try to find fun and challenging projects to nail. Most recently we created dynamic Instagram photo contest service for the City of Helsinki.
